Outerwear Is 'Really In' For Giving

Outerwear for a man's Christmas 1961 takes on a rugged, practical and thoroughly masculine look, according to the American Institute of Men's and Boys' Wear. The new coats and jackets are sure to be gift-hits with the men on your list.

Ski jackets are made for action — in shorter lengths, and in real shearing and shearing like man-made fabrics in the longer versions.

High among the short jackets are quilted nylons, some in colors as reserved as navy blue or black, others as bright as the nautical signal flags from which they derive both their color and pattern.

Sueded fabrics, both woven and knitted—many backed-up with pile fabrics—look warm, are warm, and are a hot fashion to boot.

LAMINATED fabrics with woven or knitted surfaces bonded to polyurethane foam are a sensational development. The laminates are light in weight, as warm as the warmest, and available in a tremendous scope of models, lengths and colors. Water-resistant as

IT'S TIME TO GIFT HER WITH A LOVELY WATCH

A woman's passion for changing her mind or her fashions finds an exciting new outlet in watches this season, and poses exciting gift ideas for Christmas.

Gone are the days when a fine jeweled-lever watch only told time. Watches are now designed to live a showcase life on milady's wrist. They complement her costume and whatever mood or occasion she dresses for. Today, most women need more than one watch to fill all their needs.

well as warm, the laminates offer protection plus.

Many of the quilted jackets ample, some reverse from slick are reversible, too. For example, to Scandinavian sweater knits, others from a light to a dark shade, still others from one fabric to another.

Many jackets come in double-breasted styles — the lap-over offering added warmth. There's also a revival of an old favorite — the toggle-fastened duffle coat.

Brand-new and high style in outerwear is the denim "pea coat," lined with either real or simulated shearing. Fine shearing, and genuine suede, lined with shearing, are also popular.

The active part of woman's life calls for a sturdy, fine jeweled-lever watch that can take knocks and wear and come up ticking accurately.

The newest automatic, water-and-shock resistant watches fill this need, paired with bands that stand dish-pan dunking and hard wear.

FOR DAYTIME wear, the newest precision jeweled-lever watches in free-flowing graceful forms are as attractive as they are practical.

For timely after-dark glamour, watches studded with diamonds or other stones accent any evening costume beautifully.

A watch wardrobe, in whole or in part, is perhaps the gift of all gifts that will combine beauty with function in many a woman's Christmas scheme of things.

MAKE THIS Centerpiece Tree with help from the kitchen. Using a three tier tray as your base, place holly leaves or evergreen on each tier. Put holly and berries inside the centers of flexible, golden-metal Kurly Kate pot cleaners—you find them at all the markets—and place the gaily-bedecked pot cleaners on each greenery-covered tier. Top the tier tray with a foil bow or other ornament—and lo, you have a perky, sparkling tree for table or mantle.
